**Ignitia & Edgenuity Virtual Academy offers students the flexibility of a virtual classroom with the same recognized accreditation as a traditional school. The virtual classroom is available to students when they are ready to study, and the self-paced curriculum means you can finish courses on your own schedule. These courses offer support staff qualified in the specific course areas that are available to help when students have questions. They offer live chat, phone support, and scheduled web conferences to help students along the path to course understanding and completion. The IVA courses are faith based with Christian staff and instructors. The EVA courses are secular courses with secular staff and instructors.*

In addition to all of the courses listed above, we encourage any of our students that have a desire to attend college to look into the possibility of taking dual enrollment courses during their Junior or Senior years. These are courses offered through colleges that would allow students to earn college credits while also earning High School graduation credits at the same time. Our students are eligible to apply for the College Credit Plus program through the state of Ohio which may cover some or all of the costs of certain dual enrollment courses.

As a Christian School that recognizes the importance and value of a Christian education we would strongly encourage you to look into Christian Colleges and Universities that offer dual enrollment courses. Ohio Christian University as well as Cedarville University would be options in Ohio that would allow you to take advantage of CCP.

Of course, WCS has a few Christian colleges that we feel align very closely with our beliefs & practices and we would encourage you to look into those as well. Some of those colleges would include Bob Jones University, Pensacola Christian College, Maranatha Baptist University, Ambassador Baptist College, Crown College of the Bible, Appalachian Bible College and West Coast Baptist College. All of these colleges offer discounted rates on their college courses through their dual enrollment programs.

Please understand that if you desire to replace any of the core courses (English, Math, Science, or History) with a dual enrollment course, they must be taken through a Christian University. Elective course credits may be taken at any college or university you choose. If you have any questions please contact the school office.
